Rule Change For An Increase in Wheat Seeding

The U. S. Department of Agriculture today outlined general provisions of recent legislation permitting farmers whose wheat acreage allotment is less than 30 acres to grow up to 30 acres of wheat for use exclusively on the farm where produced. The new provision will apply only to 1958 and future crops and does not apply to the 1957 and prior wheat crops.

Another provision contained in this law provides that no acreage needed to wheat for harvest as grain in 1958 or thereafter in excess of the wheat acreage allotment on any farm, regardless of the size of the wheat allotment, shall be considered in establishing future state, county, or farm acreage allotments.

The revision in farm law relating to acreage allotments and marketing quotas will enable a livestock and poultry producer who has a small allotment or no allotment to increase his wheat production in 1958 and thereafter and not be liable for marketing quota penalties.

A number of limitations are placed on the production and use of wheat under the new provision. Producers, to be eligible to grow up to the 30 acres without penalty, for the 1958 crop, must sign an application prior to planting time on the farm, or October 15, 1957, whichever is later, and the application must be approved by the county Agricultural Stabilization and Conservation committees. These applications will be available in ASC county offices soon.

The application, which will set forth the conditions of the program, must show the intended disposition of the wheat. An application may be cancelled at any time at the producer's request but marketing quota provisions will then apply.

If the producer signs up for the feed wheat exemption provision, under the law the entire crop of wheat must be used on the farm where produced for seed, human food, or livestock and poultry feed. Not more than 30 acres of wheat may be grown on the farm, and none of the wheat may be sold, bartered, or exchanged, nor will it be eligible for price support.

The livestock or poultry fed must be owned by the producer, or subsequent owner or operator of the farm. It may not be removed to another farm for any purpose.

If the wheat is to be ground into feed or flour at a mill, all of the processed product and by-products must be returned to the farm. The producer may not pay for the service of grinding by giving the by-products or any of the grain to the mill.

The 30-acre limit does not apply to farms operated by and as a part of state or colnty institutions or religious or charitable institutions, provided an application has been signed. However, the use restrictions apply fully to these organizations.

No marketing card will be issued for farms covered by the feed wheat exemption provision since none of the wheat from such farms may be sold. If the conditions on which the exemption is granted are violater, the exemption becomes null and void and the producer will be subject to penalties under wheat marketing quota regulations.

Producers who participate in this program must maintain adequate records of the disposition of the crop of wheat produced on the farm and of any other wheat acquired and used on the farm. A disposition report of the 1958 crop must be filed with the county ASC office not later than September 1, 1959.

Producers who participate in this program for the 1958 crop of wheat will not be eligible to vote in a referendum on 1959 wheat marketing quotas, if quotas are proclaimed.

Childproof Floors This Fall

In your fall housecleaning schedule, list floors that lead directly to the outdoors and other linoleum or tile floors for special childproofing to protect them from fall weather wear, and more hours of indoor living.

Childproofing is a simple wash and wax routine that keeps floors bright. Clean floors thoroughly before waxing. Use a floor wax which combines water-repellent and scuff-resistant qualities. One new type for childproofing all floors is a self-polishing floor wax made with vinyl. This new wax combines brightness with better-than-ever water-repellency and scuff-resistance.

You'll find childproofing protects floors from adult track-ins, too, as flower bulbs are toted from garden to storage and summer things make way for cold weather living.

HEALTH NEWS

Vigorous, outdoor exercise is good for a healty body. It flushes the lungs and fills them with fresh, clean, air, stimulates the circulation and rests the mind. A brisk walk around the block costs nothing, yet can do more for yourr general health than costly medicine.

All of us, who are physically able to, should indulge in some form of outdoor exercise each day. This will help all parts of your body to function better. The ladies will be interested to know that regular exercise in the fresh air will keep you younger and more vital-looking.

Proper exercise will greatly help the problem of elimination some older people suffer from. Nervous tensions and insomnia can be relieved by exercise. Figure-conscious people say that exercise is important to keep the proper distribution of weight over the body frame, even when you carefully watch your diet.

Even with a busy schedule, you can, if you really want to, work in a brisk walk each day. Harry Truman, when he was President, made it a point to walk to his office each morning.

If you have a real figure problem you may want to take one or two special exercises to correct it. From time to time exercise patterns are printed in magazines and newspapers. These tell you how to deal with buldging hipe, too fat waistlines, etc. These exercises if followed, as directed, will not make you into a dream overnight, but they will improve your figure and keep it from going downhill.

U. S. golfers retain Walker Cup laurels.

KNOW THE WEATHER

By E. H. Sims

Why does the altitude of an airport affect the length of a runway required to take-off and land commecial airliners? Does the season of the year also affect the length of the runway needed?

The altitude of an airport is allportant in determining how much runway a fully-loaded aircraft requires for take-off. The air is thinner as elevation rises, and an aircraft taking off in Denver, for example, needs a longer take-off run than one taking off in Washington, D. C. (elevation near sea level).

Not only is the thin air harder to "bite" into with propellors, to gain thrust, but the density of it also affects the lift above the airfoil (wing.) The wing of an aircraft gets most of its lift from the vacuum created above it, not from the bottom surface gliding upward on the air.

In summer, when the air is sometimes very thin, take-off requires a longer runway than in heavier air at other times of the year. Therefore, if you find yourself at an airport, five or six thousand feet above sea level, in the dead of summer, expect a long take-off run, especially if there is little wind.

NEWS FROM HOLLYWOOD

Practically all of the movie stars will be appearing on television this season. Frank Sinatra has ten half-hour shows for ABC already in the film can. His first show, however, will be live—a one hour show from Hollywood, October 8th.

Mr. and Mrs. Herman Wingfield and Miss Ann Terry, of Richmond, were week-end guests in the home of Mrs. H. T. Terry.

R. S. Baldwin, Tommy Ligon and R. E. McCleanry, Jr. laft this week for Blacksburg, to renew their studies at V. P. I.

Rocks

Rocks, Sept. 16.- Is was quite warm here last week.

Mrs. Robert Roach accompanied her daughter, Mrs. Glenn McIntosh and Teresa and Mrs. R. H. Wooldridge to Farmville recently to see the former's brother, Richard Inge and his family.

Rev. Joseph Darden had charge of the prayer service here on Tuesday night.

Miss Bernice Harvey, of Appomattox is spending awhile with Mrs. M. H. Marks.

Mrs. J. P. Ransone, Jr. and son, Jack, of Norfolk, were over-night guests of the former's mother, Mrs. D. R. Inge Wednesday night.

Mrs. D. R. Inge accompanied her daughter, Mrs. J. P. Ransone, Jr, and son, Jack to Norfolk Thursday, where she will visit for awhile.

Rev. and Mrs. Joseph R. Darden attended the Regional Sunday School meeting in Lynchburg at the Rivermont Church last Thursday.

Mrs. Allen Franklin and baby, Shelia Jo returned home from the hospital Friday.

Mrs. Jennie Almond received word that her son, Joe, had arrived safely in Germany, and is getting along real well.

Mr. and Mrs. Harry Ranson and family were visiting in Lynchburg Sunday.

Mrs. D. L. O'Brien and Mrs. Carl Shelton were at Pamplin awhile Sunday afternoon late.

Mrs. Clara Garrett, of Evergreen spent the week-end with her daughter, Mrs. Toby Inge.

Cassie Baldwin spent Saturday with her aunt, Mrs. George Carter, of near Sheppards.

The Rev. and Mrs. Joseph R. Darden were dinner guests of Mr. and Mrs. Jim Frank Ranson and family and Mrs. W. F. Ranson Sunday.

Miss Louise Ranson will enter Phillips Business School in Lynchburg Monday.

University of Richomnd handily defeats East Carolina State in football opener.

Hixburg

Hixburg, Sept. 17.- Dr. Clyde G. O'Brien's patients in this community are greatly pleased to know that Dr. O'Brien is making a rapid recovery.

Mrs. W. B. Ford and Mrs. H. M. Marshall, of Pamplin visited Miss Maggie Hix on Wednesday.

Mr. and Mrs. Lloyd (Pete) Baldwin moved from Hixburg to Pamplin last week.

The choosing and hanging of pictures were topics discussed when the Pamplin Home Demonstration Club met in the home of Mrs. Bernard Anderson in Appomattox on Tuesday evening. Large pictures are most popular.

Watkins McPhillips, now of Richmond, formerly of Hixburg, was knocked down and robbed of $46.00 by two young white men, as a parking lot on Fourth and Franklin Sts., on Thursday at 12:30 A. M. He was returning from an accountant's meeting and was about to enter his car. The back of his head was cut, making a minor injury.

Spout Spring

Spout Spring, Sept. 18.- Mrs. Shearer Robertson has returned home from the Virginia Baptist Hospital, after undergoing an operation Saturday.

Mr. and Mrs. Clarence Ellet are the proud parents of ababy girl, Ann Barton. Mrs. Ellet is the former Miss Annie Torrence.

Mrs. H. A. Torrence is spending several days in the home of Mrs. Shearer Robertson.

Mr. and Mrs. Ernest Burford, of Roanoke visited her sister, Mrs. H. A. Torrence last week.

Mrs. Lawrence Callahán, of Roanoke spent last Thursday night with Mr. and Mrs. Shearer Robertson.

Mr. and Mrs. Theodore Carson, of Altavists and Mr. and Mrs. Buck Baley and Linda, of Lynchburg, spent several days last week with Mr. and Mrs. W. H. Robertson.

"THE COMMON GLORY" SUBJECT FOR SERMON

Williamsburg, Sept. 16.- "The Common Glory" — long noted as an outdoor drama — yesterday moved into a Michigan pulpit.

Rev. Harry G. Kellogg, of Ann Harbor, informed the show's producers, "It inspired me so much that I have written a patriotic sermon using the name of your great drama for my theme."

In addition, Rev. Kellog has sent a copy of his sermon to the Valley Forge Freedom Foundation "for their consideration." Recently the traveling minister, who saw "The Common Glory" last month, won an award for another sermon entitled "The Eternal Spring" — and inspired by Florida's Silver Springs.

The new drama-inspired sermon was delivered yesterday morning from the pulpit of the First Congregational Church in Hudson, Michigan.

Although "The Common Glory" closed its 11th season here September 1, its afternoon companion-drama, "The Founders" will continue performances through October 19.

The State Department has announced that, on a strictly limited basis, travel by United States citizens to Bulgaria would be allowed for the first time in seven years.
